

SGA 2: Application to the Fundamental Group

Bounded source-aligned working unit — 22 July 2026

Authority and boundary. Corrected French TeX line 3542; original printed p. 120, source-PDF physical p. 104, and recomposed running p. 96. Corollary 3.8, its proof, and blank line 3541 are excluded. Blank line 3543 and Lemma 3.9 from line 3544 are excluded. The raw continuation cursor is line 3543 and the next substantive cursor is line 3544. The French authority remains byte-exact; the same-edition PDF is manifestation/layout evidence only. Independent review and archive handoff have not been performed; this package is internal and not for release.

The following lemma is the essential point in the proof of the purity theorem:
