Departamento de Materiales Educativos de DIGEBI

“Se autoriza al Ministerio de Educación la edición y publicación del presente material en apoyo al Sistema Educativo Nacional”. Lo indicado en cumplimiento con los Artículos 5, 14, 17, 21, 24 y 25 del Decreto 33-98 de fecha 19 de mayo de 1998, Ley de Derechos de autor y Derechos Conexos.

La diagramación, actualización y adaptación de este documento se realizó gracias al apoyo de Save the Children y el financiamiento del proyecto NORAD, dentro del resultado: *Maestros de escuelas primarias aplican metodologías innovadoras y orientadas en el niño para mejorar el aprendizaje.*

Save the Children

Niñas y niños de Guatemala:

El empeño que hoy tienen en aprender será la garantía de su éxito personal y profesional en el futuro.

Les invito a que aprecien y cuiden mucho este libro porque es la llave para entrar al mágico mundo de los números, y entenderlo para hacer de él una herramienta, en la búsqueda de soluciones a problemas de la vida cotidiana.

Este libro les será de gran utilidad para entender la matemática con más claridad para saber vivir y convivir con su entorno.

Al recorrer sus páginas aprenderán a contar cuántos somos en el país, qué compramos y qué vendemos. Verán el gran parecido que hay entre los diseños de nuestros trajes típicos y las formas geométricas. Disfrutarán observando los elementos naturales que abundan en nuestra Guatemala cuando estén sumando, restando, calculando, midiendo, pensando, o bien resolviendo problemas de actualidad.

Nuestro país necesita de personas como ustedes, con ganas de aprender, de compartir con los demás lo que saben, pero especialmente, con deseos de sumar esfuerzos, restar diferencias, dividir nuestro tiempo para ayudar a otros y multiplicar el progreso de todos los guatemaltecos.

Deseo que disfruten aprendiendo matemáticas con su libro.

Con especial cariño.

Doctor Oscar Hugo López Rivas
Ministro de Educación
