

Non-European Mathematics Manuscripts

Current public reader index: combined readers, work-level PDFs, and source artifacts.

This is a working corpus. Top-level PDFs are for reading/checking; ZIP files preserve TeX, source scans, OCR/review notes, page images, and as-received provenance. The 30-01, 30-02, 30-04, 30-05, and 30-06 Arabic reader PDFs have been rebuilt from repaired local-font TeX after the public PDF audit found boxed or platform-dependent glyph rendering in earlier drafts.
